TAYLOR & TAYLOR,  
EDITORS AND PROPRIETORS.

Saturday, Feb. 9, 1901.

Purity of thought gives purity of life.

Where, oh! where, is that country farm?

Without education, what show has a person. Just think,

The only word, that covers everything, is spelt—Dollar.

Terrell has called a meeting for a white man's primary election.

St. Candelmas day was a record breaker for rain, hail and wind-storms over the state.

If it was not for having to hustle for the dollar, we would be strictly in it. We could go fishing.

When a woman buys a hatchet in Kansas the saloon men shiver in their shoes for they expect a raid.

If this is to be the Electrical Century, as is generally predicted, how could it be better introduced than by the elaborate display of electrical advancement that is to be made at the Pan-American Exposition? which opens May 1st, at Buffalo, N. Y. Never before has there been an exposition projected where the question of the amount of power to be used was limited only by how much can be advantageously used. This is a marvellous feature and its full significance is almost beyond human comprehension. However, the nearness of the Pan-American Exposition to Niagara Falls and its truly wonderful power resources makes the statement absolutely true.

Gentlemen of the Texas Legislature, don't forget Louisiana exempts all manufactories from taxation, and Texas raises three million bales of cotton, hundred of thousands of sheep, millions bushels of wheat and corn, and has everything else in the raw state, which needs to be manufactured. Only seventeen mills to tackle three million bales. Now gentlemen let your minds be as broad as your State, and give her exemption laws that will bring in millions of capital.

The Fort Worth Register gives the following good idea of paying off debts of a town that others might follow, and we ask who will be first for Jefferson?

The brightest Yankee schemes comes out of Bridgeport, in Connecticut. It is to pay off the public debt of the town by insuring the lives of its citizens, the town to pay the premiums, and to collect the insurance when the policy-holders die. Who is the public-spirited citizen that would not die for his town?

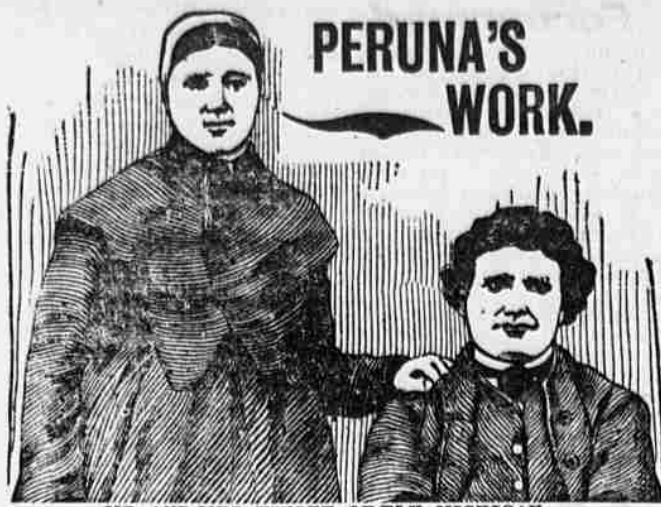

We are glad to note the prospect for making the Brazos river navigable to Waco, is so flattering. Whenever we hear of any stream being put in boatable condition,

### THE SHIP SUBSIDY BILL.

It is wrong to impute wrong motives to any man on mere suspicion, or characterize any act carrying with it an appropriation, as a steal, without the facts in the case justify the accusation, and the undisputed testimony sustain the charge. Nor is it right because one may differ with another politically, to suspicion his every action, or question his sincerity. Much of this is now being done in regard to the ship subsidy bill. Many are opposing it on no other grounds, and for no other reason, than because Senator Hanna chanced to originate it, bringing forth the idea of developing the American ship industry, and have the commerce of America carried by American made vessels. In one sense it may be termed protection, and again it is no more, nor less, than is done by every progressive and prosperous city, paying for a factory, railway and railway shops. Every community that does this, is doing no more, than would be done by the National Government, when it subsidizes the shipping interest. National pride, should, if nothing else, cause the passage of such a law, so that in every port, beneath every sun, wherever American made goods are sold, they could be found in American made vessels. Those who will take the trouble to go into the merits of the case, will be convinced, that no measure yet introduced by any Senator or Congressman, that carries with it so much prospective benefits for the south, as does the ship subsidy bill. The Southern Spinners association, passed a resolution recommending the passage of the law. Such men as Robt. J. Cowry, of Atlanta, Ga., president of the Lowry National Bank, Geo. Gray, president of the Avon Mills, Gastonia, N. C., Jos. Orr, president of the Piedmont Manufacturing Co., Greenville, S. C., E. O. Hopkins, president, Sloss, Sheffield Steel and Iron Co., Birmingham, Ala., T. I. Hickman, president Graniteville Manufacturing Co., Augusta, Ga., H. S. Chamberlain, president Roane Iron Co., Chattanooga, Tenn., J. F. Housen, president Bibb Manufacturing Co., Mason, Ga., and hundreds of others endorse the bill, purely from a business stand point, and because of the great beneficial results, that will as a matter of fact accrue to the south, and great benefit to the country.

### MANY HOMES MADE HAPPY.

### PERUNA'S WORK.

MR. AND MRS. KINSEY, OF ELK, MICHIGAN.

Mrs. Margaret Kinsey, Elk, Genesee county, Mich., writes to Dr. Hartman, as follows:

"I am well and think I will need no more medicine. I feel so well, and all my old complaints are gone, which were many. I often did not know which way to turn. No one knew what I suffered. For forty-nine years I suffered but now I am cured, for which I thank Dr. Hartman for his advice and good treatment. I keep Peruna in the house all the time and shall never be without it."

"My husband had a cough for nine years. He took Peruna and it helped him. He looks quite young. He works hard every day and is getting fat. He takes Peruna three times a day. You don't know how thankful I feel toward you; I never think of you but to thank you and will do all I can for you."

Congressman J. H. Bankhead, of Alabama, one of the most influential members of the House of Representatives, in a letter written from Washington, D. C., gives his endorsement to the great catarrh remedy, Peruna, in the following words: "Your Peruna is one of the best medicines I ever tried, and no family should be without your remarkable remedy. As a tonic and a catarrh cure I know of nothing better."

Hon. J. H. Bankhead.

There is but a single medicine which is a radical specific for catarrh. It is Peruna, which has stood a half century test. It has cured thousands of cases of catarrh. Ninety times in a hundred, those who have been cured of catarrh by Peruna thought they had some other disease.

The remedy to cure catarrh must be able to reach the mucous membranes, and this is exactly what Peruna does. Peruna operates at the fountain head. Peruna produces normal, clean and vigorous mucous membranes. Catarrh cannot remain in the system if Peruna is used according to directions.

Address The Peruna Medicine Company, Columbus, Ohio, for a free book on catarrh.

The big printing houses appear to be getting in their work at Austin with the committee on public printing. A bill has been reported favorably which if passed will knock out local printers, not because of the price but because of the inability of local printers to supply all the blanks specified in a given class for the use of the county. Moreover, the county would then be liable to cost the county a large sum of money for the work and reasonable prices secured by the big printing houses.

The money already expended in a vain effort to subdue the Filipinos and grab their lands would have made tillable more land in western America than there is in whole Philippine group. This would have created a larger market at home, provided homes for millions of people and made unnecessary the sacrifice of a Tuesday and report a good time.
